The report presents the current situation with the young research talent in the humanities in Ukraine. In the centre of the presentation are the problems of the education and the paths to further development of the Ukrainian young talent in philosophy, sociology, political science, psychology, jurisprudence. The special feature of the education of young talent at the Department of humanities and fundamental juridical sciences of HEPU and in the Kharkiv region will be given. These highly skilled specialists will contribute to the overcoming the crisis in the Ukrainian society, economy, policy, culture and court system.

Furthermore "the brain drain problem", its causes, consequences and remedies in the humanities in Ukraine will be under consideration. The important role of the foreign foundations and support of the Ukrainian young research talent in the humanities will be pointed out as well, especially the postdoctoral program of the Alexander von Humboldt Foundation.
