In Ukraine become topical medical-engineering education now. That is why Intercollegiate College of Medical Engineering was established on the 24 th of December 2002 jointly by the O. O. Bogomolets National Medical University and the National Technical University of Ukraine "Kyiv Polytechnic Institute". The College consists of the three main departments: medical cybernetic and telemedicine department, the biomedical engineering department and the department of therapeutic-and-diagnostic complexes. Also, there are the master's education department, the educational and research center for medical engineering, the NTUU "KPI" students' polyclinic and the NTUU "KPI" sanatorium. The main specialities of the College is computer science, human health, instrument engineering and sports.
